March 26, 2020

New York State Education Department
89 Washington Avenue
Albany, NY 12234

Dear Chancellor Rosa, Members of the Board of Regents, and Interim Commissioner Tahoe:

We write on behalf of the Coalition for Multiple Pathways to a Diploma to urge New York State to suspend any and all Regents exam graduation requirements for students otherwise eligible to graduate in 2020, except in cases where parents specifically request that their child not graduate so they can continue to attend school and attempt to meet these requirements in coming years.

Our coalition of more than 80 individuals and organizations, including educators, advocates, and parents from across New York State, firmly supports your decision last week to suspend most State assessments. We agree that during these unprecedented closures, schools need to be able to focus on providing continuity of learning, and directing efforts toward local school and community needs, rather than being concerned about helping students pass high-stakes tests. During these stressful and uncertain times, high school students -- particularly those scheduled to graduate this summer -- also need to be able to focus on learning rather than worrying about whether they can pass the 4+1 Regents exams required for graduation. Research shows that locally-determined measures like GPA are better predictors of post-secondary success than are high-stakes tests.¹ Now more than ever, it is critical that educators have latitude to choose age-appropriate activities, assessments and projects that demonstrate their students’ learning for the year, rather than teaching to exit exams.

This is a matter of equity. Across New York State, we are observing significant disparities in students’ access to remote learning. Many students from rural areas and low-income homes do not yet have access to the technology or internet service they need to fully participate in remote learning. What is more, with schools closed, it is very difficult to provide many students, particularly English Language Learners and students with disabilities, with the targeted and individualized supports they need to prepare to pass high-stakes exams. Additionally, many private high schools do not require these tests for graduation and will award diplomas to students based on their completion of course requirements. Students in public schools across the State should have the same opportunity.

This is also an urgent matter of student engagement. We are concerned that without timely information about waiving exit exam requirements, older students, particularly ELLs and immigrant students who cannot imagine passing their last Regents exam without in-person supports, will drop out to focus on supporting their families economically, rather than finishing the last of their coursework through remote learning. With your swift action, we believe there is still time to keep these students engaged.

Whether or not New York State determines that administration of June Regents exams is technologically and administratively possible, we urge the Board of Regents to take emergency action to waive the exit exam requirements, Regulation 100.5(a)(4), for all students who have passed their required coursework and are otherwise eligible to graduate in 2020, unless a parent specifically requests that their child be allowed to remain in school to complete exit exam requirements. Waiving exit exam requirements does not require federal approval, as ESSA does not require states to tie state accountability assessments to graduation requirements. We urge you to quickly announce a plan to take action on this waiver so that students and educators can focus on maximizing remote learning rather than worrying about high-stakes tests.

We are requesting your immediate action to address the needs of students scheduled to graduate this year. However, we are also concerned that if it becomes necessary to cancel this summer’s Regents exams, students in grades 8 through 11 will miss the opportunity to take required exams and may be forced to take high-stakes tests months after completing the course. The impact on these youth also needs to be considered. As SED and the Board of Regents move forward, over the next two years, with the critically important Graduation Measures initiative, we also urge you to consider other, more meaningful and rigorous ways for these students to demonstrate their college, career and civic readiness.

Please feel free to contact me with any questions or to discuss this recommendation further. We wish you and yours health and safety. Thank you for your leadership during these challenging times.

Sincerely,

Ashley Grant
