

Family Peer Advocate Credential Renewal Policy Change

A Focus on Cultural Humility, Racism and Anti-Racism Practices

Beginning July 1, 2021, applicants for renewal will be required to submit two hours of continuing education in Cultural Humility/Bias Reduction/ Anti-Racism in order to renew their credential. The Cultural Humility/Bias Reduction/Anti-Racism trainings will be included as part of the current 20-hour requirement at all renewals after July 1, 2021. Below is a list of trainings that we have put together for you to consider to meet the new requirement. You can also find this list on the FTNYS website under Workforce Development. Click here for a link. We have compiled this list as a starting point. These are just suggestions. Any training that addresses Bias, Cultural Humility, Disparity, Anti-racism, LGBTQ and/or Micro-Aggressions can be accepted. If you are getting ready to renew your FPA Credential, keep this new requirement in mind as you collect your continuing education activities.

If you have any questions, feel free to contact us at FPACredential@ftnys.org.
