

Junior Youth Peer Advocate Program

The Junior Youth Peer Advocate (JYPA) Training program is a 5-week training for high school students (grades 9 – 12) who are passionate about supporting others. Upon completion, trained JYPA's are eligible to facilitate support groups for fellow students within their school.

JYPA's are under the supervision of an adult ally (teacher, school counselor, social worker, etc.). FTNYS offers ongoing technical assistance in order to ensure all groups have the necessary resources to succeed.
