**More about the FTNYS FPA Provisional or
Professional Credential**

Families Together administers the New York State Family Peer Advocate Credential. As of 2021, over 700 Family Peer Advocate Credentials have been awarded. The establishment of the FPA Credential recognizes the importance of family-to-family support. The intent of this credentialing process is to formally recognize the expertise of Family Peer Advocates, to ensure all advocates demonstrate core competencies, to expand reimbursement possibilities, and to provide opportunities for professional growth and collaboration.
